Our neighbor, Toby, is very much upset in regard to the anti-spitting ordinance in your city. He chews the weed occasionally, and especially when in town, and he says he will be compelled to get an old fashioned gourd, like folks use to carry water to the field in, and suspend around his neck, or pay for the privilege, as soon as he reaches town, and get a receipt, so he can be easy, and not think every time some one comes up unexpectedly, that he is then headed for trouble.

If the writer of the Walter Letter Killickinick, has not been too rushed with offers to help that popular young man out of "single cursedness", let us say: There was one of our fair young ladies heard to remark when she read the item: "Ah, is there one other person who does not like the scent of onions? Good, if I can be fortunate and avoid the rush!" A word to the wise is sufficient. We think she would like to know through the ARGUS if she is early enough to avoid the rush. Of course, we know he will have a tremendous rush, therefore we would like to get this application in before it is too late.

## DEMOCRATIC PRIMARIES AND COUNTY CONVENTION

At a meeting of the Democratic Executive Committee of Wayne county, held in Goldsboro on Saturday, April 19, 1902, it was ordered by the Committee:

I. That primaries be held at the different voting places in the county of Wayne, except in Goldsboro township, on Saturday, June 21, 1902, at 3 o'clock, p. m. and that a primary be held in Goldsboro township at the Court House on Friday night, June 20, 1902, at 8 o'clock, all of said primaries being for the purpose of electing delegates to the County Convention, to be held in Goldsboro on Saturday, June 28, 1902, at 12 o'clock m., and for the purpose of electing an Executive Committee in each township.

II. That a County Convention be held in the City of Goldsboro, on Saturday, June 28, 1902 at 12 o'clock for the purpose of electing delegates to the State, Judicial and Congressional Conventions.

III. That notice be given to the Democratic voters that at the county convention to be held in Goldsboro, on June 28, 1902, the proposition might be considered of rescinding the resolution adopted at the last county convention, requiring legislative and county officers to be nominated at a primary election.

The committee gives this notice at the request of the Democratic voters of the county, and without making any recommendation in regard thereto.

The committee declined to take any action upon the question as to whether the resolution should be rescinded or not, because, in the opinion of the committee, it had no power to rescind a resolution of a county convention, and deemed it advisable to leave the question to the convention.

This the 21st day of April, 1902.

W. R. ALLEN,  
Chairman.

### AN IMPORTANT INVENTION.

Mr. William Edward Jenkins, a well-known and popular travelling salesman, residing at Goldsboro, N. C., was recently granted a patent by the Government for an invention which promises to revolutionize the present methods employed by railroads at street and public road crossings. Mr. Jenkins has devised a piece of machinery which, he claims, will do away altogether with flagmen and gate keepers, and thus not only save the railroads thousands of dollars every year, but will preclude all possibility of accidents. The North Carolinian makes frequent trips to Charleston, where he has many friends, who bespeak for him success with his invention.

As stated, the invention relates to the improvements in gates for railway crossings, the object being to provide a gate with an actuating mechanism of simple construction, not liable to get out of order and adapted to be controlled by a train passing over the track, thus dispensing with the services of a man usually employed for operating the gate.

### Pay Your Poll Tax.

The near approach of May 1st should impress upon delinquent poll tax payers the importance of qualifying themselves to vote by "squeezing up" before it is forever too late for next election.
